

Let the Flearning Begin!

FLEARNING

We need a magic formula
To make a flearning blend.
So kids will keep on learning
Even when the fun begins.

With flearning it's amazing
How they run to class and then
Start to grab at books with eagerness.
And read with funny grins.

You'll find this magic formula
Inside of your own heart
Just think of why you're teaching
And right then the magic starts.
